

## **Home Visiting Programs**

### **What are home visiting programs?**

- Programs that come to your home to support you and your child
- They bring activities for your child and track progress as they learn and grow
- The goal is to support families in giving their child the best start

### **Why are they helpful?**

- Families get involved in their child's growth
- Staff can help caregivers and family members connect to valuable resources
- Programs can be important if your child has developmental concerns

### **What else is important to know?**

- They want parents to be involved
- Most home visiting programs are free!
